## DETAILED ACTION

### *Election/Restrictions*

1. Applicant's election with traverse of Group I, figure 2, claims 1, 2, 4, 5, 6, and 8 in the reply filed on July 11, 2006 is acknowledged. The traversal is on the ground(s) that the examiner needs to substantiate her position of another method to make the product as claimed. This is not found persuasive because another different process to make the gland would be molding, or in the alternative, the process as claimed can be used to make another materially different product such as an elastomeric plug.

The requirement is still deemed proper and is therefore made FINAL.

2. Claim 1 is allowable. The restriction requirement to the species a-d, as set forth in the Office action mailed on June 15, 2006, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement to the species is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 3 and 7 are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement to the species, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

3. This application is in condition for allowance except for the presence of claims 9-12 directed to an invention non-elected with traverse in the reply filed on July 11, 2006. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.
